STATUTE

Of registration of **photo trophy** in the rating lists of CMH
for the rewarding by the Club of Mountain Hunters Prizes

For popularization of the correct national trophy hunt and for stimulation of economic development of the remote regions and financial support of the protection of mountain animals being under risk of disappearance, the Club of Mountain Hunters brings in the category

“Photo trophy”

for the trophy species of the mountain animals, included in to the rating lists of the Club and those, which are prohibited for the hunt by the international or national laws for the protection and population recovery of the particular species.

Photo trophy is defined as a photo, which is done personally by the nominee in the areas of the natural habitats of the species. The photos made with the use of the motorized technical instruments are not considered for the registration.

The order of photo registration:

- Register on the site of the Club of the Mountain Hunters;
- Add the report in the profile;
- Attach a photo of a live animal to the report;
- Indicate the geographic locality and define, if possible, GPS or GLONASS coordinates. The photos must give the possibility to define the biological species of the animal;
- A photo of the nominee in the same area as the shot is made should be attached to the report.

Report must reflect the information about the organizer of the trip.

All materials provided by the participants will be considered by trophy commission approved by the President of the Club as they appear.

Information about the members of nominations is provided on the site CMH according to the requirements of the Federal law No152-ФЗ «About personal data». Names and photos of the hunters (and their trophy) may be included in to the Book of the trophies of the CMH and published on the pages of the annual hunting calendar

and the periodic press according to the requirements of the Federal law No152-Φ3 «About personal data».
